## ATTENTION!

Subjects on order for this customer. Please see to it that all color or negatives are uniform and colors are in harmony with each other to make an attractive set.

### GARD NO. I - MAKE OVER

This should be a live steer's head, not a white skull. Note the ears; the drawing would not show ears if it was intended to be a skull. Furthermore ears are NOT IN FRONT OF HORNS. Ears should be under and slightly to rear of horns. Horns should be grey, shading to black; ears and head should be reddish-brown like our card S-5 herewith, with some white on face. Don't make it moss-green like the Tichnor sample which is enclosed for detail of ears only.

Grey smoke from branding fire then passes across brown and white face of cow. This card should be in shades of tan or buff. Green background is O.K. and deeper color you have back of each brand is O.K. but kill that red bleed-background you have on upper two-thirds of card.

Hashknife brand, middle one on left, should be solid, not hollow. Top brand should be all lines same thickness - make the ring at top same thickness as rectangular lines below it. Right hand corner of brand is too square. Round off the outer corner a little. Hash-knife brand second from top on left should have a straight bar across bottom the same length as curved bar across top.
